

TO ALL RESIDENTS of PALM VALLEY:

City and County crews will began a seal coating project on our streets here in Palm Valley.

It is anticipated that this project will begin on Wednesday, April 17, 2019 starting at about 10:00 a.m. The crews will continue to work daily until completed. Please do not park your vehicles on the street during this time and take special precautions around the work areas and follow all detours. If you experience any difficulties please contact the Police Department at 873-1500.

The product that will be used for the seal coating is a fast drying product expected to dry within 2-3 hours. The entire project is expected to be completed within 30 days (weather permitting).

While this will cause an inconvenience to all residents, the seal coating project is essential to extend the life span of our streets.

I am asking for your cooperation and patience during this time. If you have any questions, please contact City Hall at 423-8384.

George Rivera
Mayor
